

LEAD-K

LANGUAGE EQUALITY & ACQUISITION FOR DEAF KIDS

Launching LEAD-K Michigan

About

The Language Equality and Acquisition for Deaf Kids (LEAD-K) movement works to end language deprivation and allow children who are deaf or hard of hearing (DHH) a strong language foundation for kindergarten readiness. The launch of LEAD-K in Michigan is here!

Come join us to learn about LEAD-K Michigan and how you can be a partner in supporting our youngest learners on their journey toward kindergarten readiness. This event will have learning opportunities for both school personnel and families of DHH children ages 0-5. Language milestones, inclusive of both American Sign Language (ASL) and English, as well as resources, tools, and assessments to track and monitor language and literacy development will be shared. A light dinner will be provided.

Pre-registration is required. There is no fee, and all are welcome to register for this event. Due to space constraints, we regret that we cannot accommodate walk-ins.

Audience

This event is for adult family members, school personnel, and professionals working with children in Michigan, ages 0-5, who are deaf/hard of hearing.

(Adult family members may bring children. However, there will not be childcare or activities provided for the children.)

Choose from two different locations and dates:

Mid Michigan

October 7, 2025, 5 - 8 p.m.

Flint, MI
