

Michigan Regional Abacus Bee: Math in Motion!

About

Join us for the second annual Michigan Regional Abacus Bee: Math in Motion! The Abacus Bee is a math competition for students who are blind or low vision in grades 3-12. Competitors will participate in multiple competition sessions and hands-on activities to learn how math is incorporated into everyday tasks. There will also be activities for parents and siblings to join in the fun!

Competitors will have an opportunity to win prizes and possibly earn a spot in the American Printing House for the Blind (APH) Abacus Bee National Competition! Check out the 2025 Abacus Bee Finals video: [How Abacuses Bring Together Students with Blindness or Low Vision](#)

This program is sponsored by APH and the Michigan Department of Education Resource for Blind/Low Vision (MDE RBLV) in collaboration with Gratiot Isabella Regional Educational Service District (GIRESD).

Audience

This event is for students in grades 3-12 who are blind/low vision.
