

Moving and Grooving with Assistive Technology and Orientation and Mobility

About

Calling all families! You are invited to join MDE-LIO staff for a day of moving and grooving with orientation and mobility (O&M) fun. Students and family members will learn and practice a variety of skills related to O&M indoors and outdoors. Attendees will also be exposed to the latest assistive technology to help you get your groove on. It will be a fun way to build social connections and network with other families.

Audience:

This event is for family members and middle-school/high-school students in Michigan who are white cane users or receive direct orientation and mobility services. Any adult family member who is a part of the student's daily life is welcome, including parents, grandparents, aunts, uncles and/or guardians. Siblings are also invited.

Each student must be accompanied by one or more adult family members.
