

## Water Wonders

### About

This overnight water-themed event at Camp Tuhsmeheeta (Camp T) will have campers giggling and splashing all day long! We will explore all the wonderful things we can do with water, including swimming, boating, fishing, and exciting water games. We will also spend some time in Camp T's new Sassafras Science and Nature Center, participating in fun science, technology, engineering, and math (STEM) activities involving water and the fascinating creatures who live there. Come and dive right in as you create lasting memories with friends!

### Audience

This camp is for students in Michigan, ages 6-11, who are blind/low vision.
