

Accessing KeyMath on the BrailleNote Touch Plus

Event Description

The BrailleNote Touch Plus is an intuitive, efficient, and modern device that braille-reading students can use to complete classroom assignments. This workshop will introduce the BrailleNote Touch Plus and its benefits for completing math assignments. The device's classroom advantages include access to Google for Education apps, access to apps in the Google Play store, and efficient methods for completing and submitting math content.

Participants will:

- Learn how to use the new KeyCalc application to complete scientific calculations
- Review and explore context-sensitive help and the context menu
- Learn how to enter and edit math equations using KeyMath
- Learn how to share KeyWord documents at least three ways
