DHH Insights: American Sign Language (ASL) Assessments

Supporting the needs of students begins with data; let's explore what data collection sources are available to track and monitor American Sign Language (ASL) skills and development. Providers who are using these assessment tools with students who are Deaf/Hard of Hearing (DHH) on a regular basis will give a brief overview of a variety of tools available.

DHH Insights: Literacy for All

Literacy is one of the Top 10 focus areas for educators and learners in Michigan. Supporting the unique needs of students who are DHH often requires expertise from additional professionals. From language acquisition to literacy strategies, this webinar will explore the fundamentals of literacy development for all learners with a DHH provider lens.

DHH Insights: State Agency Supports

Meeting the unique needs of individual students who are DHH might require the additional support of state agencies. In this webinar, participants will learn about some of the supports available to school professionals, families, and students from agencies that work directly with individuals who are DHH.

Details

Time: 12 - 1 p.m.
