

MDE-LIO Presents:

# Introduction to Neurological Visual Impairment (NVI)

**May 14, 2019**

**8:45 a.m. - 12 p.m.**

NVI is the leading cause of visual impairment in first-world countries. In order to better serve this population, this presentation will discuss how NVI affects learning.

Participants will learn:

- The medical conditions related to NVI
- The ten behavioral characteristics associated with NVI
- Specialized interventions to increase visual function

Presented by Lynn Pensari and Johanna Brutvan
