

LEAD-K Assessment Data: Step-by-Step Reporting Made Simple

About

Join us for a virtual training designed to guide early interventionists and school personnel through the procedures for submitting language assessment data of children who are deaf or hard of hearing (DHH), ages 0-5. Offered by the University of Colorado – Boulder Early Language Outcomes (ELO) Lab, this training will provide clear, practical steps to ensure accurate reporting.

MDE RDHH and ELO are partnering to collect, track, and analyze language outcomes of young children in Michigan who are DHH. This training is required for any early interventionist or school personnel who may submit language assessment data on children who are DHH, ages 0-5.
