

Low Incidence Outreach presents:

Tactile Graphics On The Fly

March 21, 2019

8:30 a.m. - 3 p.m.

Parents, educators, and paraprofessionals who support students who are Blind/Visually Impaired are invited to attend this one-day workshop focused on producing tactile graphics needed in a school setting. Participants will have the opportunity to begin building their stock of materials to use in producing graphics “on the fly.”

Participants will learn:

- How to prepare in advance for essential graphics
- What equipment, software, hardware and materials can be used for graphics on the fly
- How to produce graphics using a combination of methods
- How to provide graphics by adapting existing materials

This workshop will be presented by Lucia Hasty, founder of Rocky Mountain Braille Associates.

Details

Cost:

\$50 for teachers and other related services personnel
\$25 for paraprofessionals, parents, and university students

Location:

Genesee Career Institute
Innovation Zone
G-5081 Torrey Rd.
