

## Understanding the Brain and Cerebral Visual Impairment

### About

This two-part series will feature Dr. Lotfi B. Merabet, OD, PhD, MPH, as he discusses the human brain/visual system and neuroplasticity associated with visual impairment (part 1) and assessing visual processing deficits in cerebral/cortical visual impairment (CVI) using virtual reality and brain imaging (part 2). Dr. Merabet is an associate professor of ophthalmology at Harvard Medical School and an optometrist at Massachusetts Eye and Ear.

#### **Audience:**

This event is for school personnel and family members who work with students who have CVI.
